5 AND 10 CENT STORE.

DO NOT MISS IT.

That is what the ladies say about our Cost Sale, which positively is a cost sale and no 10 or 15 per cent. above cost which most of the advertised cost sales are.

Why, it is a common thing for us to hear this week: "O, that is 15 cents per yard cheaper" or "10 cents per yard cheaper than over there." Then you will go to the next counter and again you will hear: "Why, they asked me 65 cents a pair for the same kind of hose and I see all you ask is 52 cents." And so with hundreds of things on the same scale, which will satisfy you that we are doing as we advertise.

Do Not Miss It!

Is what we also say for your own benefit.

He was at once sent to jail for perjury.

The bill resembles in its general features the Billingsly bill of the session of 1887 which went through the house, but failed of passage in the senate.

THE MEN ARE ON TOP.

The Chicago and Erie Road Are Unable to Move Trains—Strikers Stand Firm.

HUNTINGTON, Ind., Jan. 23.—The strike on the Chicago and Erie road is still on, with the employes on top, the company being unable to run the usual trains. A committee of citizens made a fruitless effort to arrange a compromise. The employes, with the full consent of Scott, the train-dispatcher, over whose discharge the trouble arises, agreed to declare the strike off if the company would reinstate Scott and permit him to resign from the service with an honorable record. This proposition was made because Scott himself feels that he could never resume his old place with comfort and because he is very anxious to protect his associates, that they may not suffer on his account. The committee presented the proposition to the officials, but they either could not or would not consent to its terms. The failure to agree to this compromise has stirred up the railroad men of all departments, and they now regard the fight as one to a finish.

The local Brotherhood of Engineers met yesterday, some sixty or seventy being present, and resolved to stand by the conductors at all hazards. They also formulated their own grievances, which will be presented to the officials. At this meeting dispatches were read from Chief Arthur and other grand officers, approving of their course in refusing to pull trains mounted by men employed in place of the strikers. Chief Wilkinson, of the Trainmen's brotherhood, has also put on his war paint, and will stand by the conductors. The local press give the statements of Scott and the other train dispatchers, in which they flatly contradict the assertion made by General Manager Tucker that the alleged lap-order given by Scott could by any possibility have resulted in a collision.

Yesterday dispatches were received by the conductors from Chief Clarke, and by the officials from General Manager Tucker, ordering a committee of conductors and Superintendent Moorehead, accompanied by Conductors Burgess, Darmody and Cronin, left for Chicago on a special at 6 o'clock. The impression is that a compromise will be proposed, and if it is fair to Scott and the conductors it will be readily accepted.

A dispatch from Chicago says: "We are completely tied up," said General Manager Tucker, of the Chicago and Erie road, replying to a query. "It may last one day and it may last a week. We will not accede to the demands of the strikers. We will wait and see when the strikers get tired. We are fixed for the strike. There is not a pound of perishable freight on the road, and we are refusing any freight of whatever description. This is a dull season of the year, and we would just as soon lay off a month as not. There are no damage suits coming. We have prepared for that. We are going to make a test case of this. Our car-shops are shut down and our trains are not running. We will run them whenever the strikers will let us. They have cut the wires, and what they will do next remains to be seen. Passengers on tied up trains will be brought in over other lines."

CHICAGO, Ill., Jan. 23.—The grievance committee of the Chicago and Erie conductors and train dispatchers arrived in Chicago this morning and began a conference with General Manager Tucker, which is still in session. Mr. Tucker said he could tell nothing about the result until some understanding had been reached. It was his hope and belief, however, that a settlement could be reached, but of the terms he could not even make a guess.

The conductors are headed by E. E. Clark, chief of the Federation of Railway Conductors, who said it remained for Mr. Tucker to put an end to the strike by reinstating Train Dispatcher Scott. Mr. Tucker said this morning that he hoped to make an effort to get trains out to day.

THERE IS NO CHANGE.

Special to THE SENTINEL.

HUNTINGTON, Ind., Jan. 23.—The situation at this point of the Chicago and Erie strike remains practically the same as yesterday. Not a wheel turning on the entire system. The shops at this point are closed and everything is quiet. Employes are anxiously awaiting the result of the conference of their representatives with the officials in Chicago this morning, the result of which they had not heard at noon.

THE CLOSURE RULE.

The Debate on it Continues in the Senate.

WASHINGTON, Jan. 23.—The senate met at 11 o'clock this morning in continuation of yesterday's session. Mr. Cockerill, who was speaking on the Cloture resolution when the house adjourned last evening, was immediately recognized and proceeded with his speech. At this point Mr. Gorman called attention to the absence of a quorum and a call of roll was ordered. Only thirty-eight senators responded, but in a few minutes a sufficient number to make a quorum appeared and business was proceeded with.

Mr. Morrill asked consent to offer a resolution for distributing public documents to agricultural colleges; but Mr. Gorman said he was compelled to object to any business whatever except the regular order.

Mr. Cockerill resumed the floor and yeilded to Mr. Hoar who said he desired to add one idea to what he said last evening. He regarded the pending proposition, he said, as he should if the case had arisen in the supreme court of the United States. There was no one who would not recognize the importance of absolute, free and untrammeled discussion in that tribunal and that no member of the court should be curtailed in stating his opinion to his brethren, or suggesting any modification of any judgement expected to be pronounced. But if it could be conceived of the august tribunal that in the case of some controversy about to pass into judgment effecting the interests of the large portions of the American people, and exciting their feelings, if four members of the nine should undertake to read opinions alternately day after day, night after night, and week after week—one taking turns with the other—and having read all the decisions which had been made since the foundation of the government, and in that way to prevent the action of the court altogether, or to postpone it until the judgments should cease to be effectual, would anybody doubt that it would be the duty of that great tribunal to interpose and to adopt some rule that would put a limit to the length of opinions or to the number of arguments that should be made by the minority?

When Mr. Hoar had concluded his statement, Mr. Cockerin resumed his speech. Mr. Teller asked Mr. Aldrich how long a time he proposed to allow for debate on the closure resolution.

Mr. Aldrich said that he took it for granted that there could be no closing of debate except by the action of the senate itself, and he asked unanimous consent that the vote should be taken on the resolution and amendment at 5 o'clock to-morrow.

Mr. Gorman objected and declared that the step taken by the senate yesterday was one which had overturned the whole history of the senate and that the decision of the presiding officer and the vote of the majority were indirect opposition to every rule of the senate and of the general parliamentary law.

NO CHOICE

Has Yet Been Made in the Illinois Senatorial Contest.

SPRINGFIELD, Ill., Jan. 23.—Sixth senatorial ballot: Palmer, 101; Oglesby, 100; Streeter, 3; no choice. The seventh and eighth ballots are the same.

Four more ballots were taken without any change.

It is said they will continue balloting all afternoon unless a conclusion is reached.

The joint session adjourned until 12 o'clock to-morrow on motion of Senator Fuller, who stated in advance of the motion, that the republicans would hold a joint caucus at 4 p. m. to-day.

GREAT EXCITEMENT

At Brussels Over the Death of Prince Baudouin Heir Apparent.

BRUSSELS, Jan. 23.—The excitement created by the announcement of the sudden death of Prince Baudouin, heir to the throne of Belgium, increases hourly and is fed by the alarming rumors already in circulation as to the cause of the unexpected catastrophe.

One of these rumors which gains the attentive ear of the public hints that when the mystery now surrounding the affair is dispelled, it will be found to be in circumstances and details almost a repetition of the tragedy which recently culminated in Austria with the death of Arch Duke Rudolph and the young Baroness Vetzera.

Attention is directed to the fact that a German governess was recently, and under peculiar circumstances, dismissed from her place at the court of Brussels. It is now said that this woman has been engaged in an intrigue with Prince Bauduion, which resulted in the birth of a child. The official notice of death gives a hemorhage as the cause and states that the prince had been suffering from a chill resulting from prolonged attendance at the bed side of his sister Henriette, who has been critically ill. She has not been allowed to learn of her brother's death, for fear the news will cause a fatal termination of her illness.

The prince's death leaves Prince Albert heir to the throne. He is a brother to the late Prince Bauduion and was born April 8, 1875.

WILLIAM B. FISHER,

The First Cashier of the First National Bank in Indiana, Formerly of This City, is Dead.

Last evening at 7:30 o'clock, in New York City, relentless death removed from life, William B. Fisher, for many years a citizen of this city. The announcement came by telegram to D. C. Fisher, a brother of the deceased, at midnight.

William B. Fisher was generally known not only in Fort Wayne but through northern Indiana, having been prominently identified with the first banking business in this section of the country. The deceased was born in Little Falls, Herkimer county, New York, but in his youth he went to Decatur, Indiana, and worked in a store owned by the J. D. Nuttman, who died in this city a few months ago.

He came to Fort Wayne with Mr. Nuttman and was associated with him in the private banking business until May, 1863, when the First national bank was organized, it being the first national bank in Indiana. Mr. Fisher was elected cashier, making him the first cashier in the state, a position he held until 1871, when he resigned and went to New York city, where he became a member of the firm of F. & C. Moore, importing and exporting commission merchants. He was a member of that firm up to the time of his death. Mr. Fisher had been afflicted with a nervous prostration for five years, and this condition superinduced physical complications, which resulted in his death. Last June he was in this city the guest of his brother, D. C. Fisher, the insurance agent, and R. J. Fisher, treasurer of the Bass foundry and machine works. That visit was made enjoyable by the many warm greetings he received, and many pleasant memories were revived of days when he made Fort Wayne his home. Shortly afterward he went to Europe in search of health, but returned to America two months afterward without any visible improvement in his condition, although under the care of eminent physicians. He gradually failed from that time until the end. Mr. Fisher was fifty-two years old. He married the daughter of Wm. M. Force, the senior member of the firm with which he was associated, and she, with two children, are left in the immediate family to mourn his loss, with the brothers, D. C. and R. J. Fisher, of this city and a sister, Miss Nettie B. Fisher, who resided with the family at Newark, N. J., which was properly their home, although Mr. Fisher's business was located in New York. The demise of Mr. Fisher is sad indeed. He was a man of intellectual and social standing, and a devoted husband and father and a true friend. He was honorable in all business transactions and his word was as good as his bond. The funeral will take place Sunday afternoon and R. J. Fisher and wife, D. C. Fisher will leave on the limited this evening for New York to attend the funeral.

OTHER DEATHS.

Yesterday afternoon occurred the death of Lizzie, wife of George Hohnhaus, of 125 High street. The funeral will be held on Sunday afternoon from the residence.

Bessie, the eight-year-old daughter of Daniel McGinnis, died at 8 o'clock yesterday morning, of typhoid fever. The funeral will take place at 10 o'clock tomorrow morning from the St. Joseph hospital.

Gustave, the infant son of George Schaefer, died Wednesday night. The funeral occurred yesterday afternoon from the residence, 212 Thomas street.

Catherine Martin, aged about fifty-five years, died yesterday afternoon at St. Joseph's hospital. The funeral will take place Saturday afternoon from the undertaking parlors of Shone and Wellman, on West Berry street.

Ida Carpenter, aged sixteen years, died at the feeble minded asylum early last evening of epilepsy. A post-mortem held to-day, showed two blood clots in the brain. The patient had been transferred from the city hospital. The body will be interred in the cemetery on the institute grounds.

Smith, of Massachusetts, to be a captain in the revenue service of the United States.

Valuable Horse Dead.

BUFFALO, N. Y., Jan. 23.—A dispatch from Hoenellsville says that the young stallion Certainty, owned at the Empire City stock farm at Cuba, is dead. He was owned by Wm. Simpson, of New York city, and was valued at $20,000.

A CHILLY BUSINESS.

Fort Wayne Natural Ice Dealers Cope With Present Difficulties.

While the ice dealers are reflecting over the cold weather which failed to materialize, the ice makers are probably exercised in feeling to the opposite extreme. The past few seasons have not been so profitable to ice dealers as could be desired, consequently no surprise is felt because they have to contend with an unusual disappointment this year. The outlook is positively dubious and uncertain. Last year the launching of the artificial plant caused Gerberding's ice line to quit business, relieving the field for the other gatherers of the congealed. This year there was anticipation of an ice harvest from the rivers hereabouts, but nature has failed to comply with their desires, so the surrounding lakes have been resorted to as a means of obtaining the required supply. At Pleasant lake two ice dealers of this city are spending no small amount of money to lay in a stock of ice for the coming season. They are Fred Helling and P. Moran. So far as the ice harvest in this city is concerned it has been of no benefit whatever. Seidel erected ice houses in Wagner's addition with the view of filling them with ice for his own use, but he has thus far been foiled in his object and he says that unless it becomes cold enough to freeze ice several inches he will convert his ice houses into residences.

COMING HERE.

General Offices of the Equitable Life Insurance Company.

It is learned, to-day, upon the authority of a prominent representative of an insurance company that very soon the general offices for Northern Indiana, of the Equitable Life Insurance company, of New York, will be established in this city. Heretofore the general state offices have been maintained at Indianapolis, but to expedite the transaction of the fast increasing business it has been deemed advisable to have several general offices, each to have jurisdiction of certain districts. The general office to be maintained in this city will employ from eight to ten clerks and will have control of twenty-two counties, a considerable territory. It is not known at present who will receive the appointment of manager. The local agent of the Equitable company in the city is M. E. Argo, ex-auditor of this county. The location of the offices will be central.

MERCHANT POLICEMEN.

The Fort Wayne Mercantile Houses Watched by Three of Them.

Fort Wayne has aside from its police protection at night three merchant policemen, called by some private watchmen. They are Henry Kiel, who tries the doors and patrols part of East Columbia street, West Columbia, Clinton, Harrison and Berry; John Madden, whose beat lies on East Columbia and East Main; F. W. Hohmeyer, who has Calhoun and East Berry street. These private policemen are paid by the merchants and while they have full authority to make an arrest, they are not under the jurisdiction of any one but the persons who pay them a small fee each week.

The Indians also promise to aid the federal authorities in bringing to justice all persons who sell liquor to the Indians. General Curry thinks that there will be no further trouble.

The St. John's Lutheran Congregation Decide to Divide Their Church Work and Build.

It is semi officially announced that the St. John's Lutheran congregation, of which Rev. Dannacker is pastor, will build a new edifice in the Seventh ward, the increasing attendance at the church on West Washington street, making such action imperative. The trustees of the church are looking around for a site and have under consideration three lots at the corner of Buchanan and Oliver streets and as many at the corner of Buchanan and John street. The new edifice will be a handsome brick structure to cost $30,000. In addition to this, school buildings will be erected at a probable cost of $10,000. The idea of selecting a location east or southeast is to make it make it convenient for a large portion of the congregation who reside in or near that section, who now travel a long ways to reach the present church on the west side.

STOLE JEWELS.

Burglars go Through the Residence of John Landenberger.

One of the elegant Bash Smyser residences on West Berry street, corner of Broadway, is occupied by Mr. and Mrs. J. Landenberger. Mr. Landenberger has been absent a few days, being in Kentucky on a business mission in the interest of the Indiana machine works, of which he is treasurer and manager. While he is away Mrs. Landenberger is in the habit of spending the night at the South Wayne residence of her father, J. F. W. Meyer, the druggist, and according to her custom she locked up the house and left it unoccupied last evening. Sometime during the night burglers pried open the kitchen window with an ax and thus gained an easy access to the interior. They ransacked the entire house, evidently in search of money, but fortunately not a cent was left in the house. They occupied their time in looking at the costly silver and other valuables, which they left scattered about in a promiscuous manner, but the only articles actually carried away are several jewels, a gold chain, breast-pins, and trinkets, some of them being prized highly, not for their intrinsic value, but for their worth as heirlooms in the family. When Mrs. Landenberger opened the doors of her home this morning, she was first made aware of the robbery. The fellows made their exit from a second story widow, climbing onto a porch and dropping thence to the ground. The sheriff and his deputies are working on the case.

A shark was caught at at Santa Cruz, Cal., the other day, whose liver yielded six barrels of oil.

THE SKIN.

Is an important factor in keeping good health; if it does not act in the way intended by nature, its functions are performed by other organs,—the Kidneys and the Lungs; and the result is a breakdown of general health.

Swift's Specific

is the remedy of nature to stimulate the skin to proper action. It never fails in this, and always accomplishes the purpose.

The gravel train that has been on the Fort Wayne road between Lima and Warsaw, has been taken off and also the work train at Valparaiso. They will be placed on again in the spring. The crews that were on these trains will be placed on through freight.

The Wabash passenger department has notified competitors that it will confiscate all mileage books found in the hands of improper parties, and asks that their competitors do likewise, thus stopping the abuse of the mileage book which has become so common.

J. L. Potter, fireman on the Grand Rapids road, has purchased stock in the Old Fort Wayne Pulley works, on East Wayne street, and will probably resign his position to give his attention fully to his new business. Joe is an enterprising young man and will succeed in any business he undertakes.

Train Master Sol K. Blair, Traveling Engineer A. S. Work, and Civil Engineer Wm. McK. Pardee, all of the Nickel Plate road, left yesterday for a few days stay at Chicago. They accompanied General Manager Williams and Superintendent of Motive Power McKenzie on a tour of inspection.

General Manager Bradbury, of the Lake Erie and Western, has gone to New York for a conference with the directors regarding the operation of the road the coming year. He desires to largely increase the equipment of the lines, and expend quite a sum of money in placing the Fort Wayne, Cincinnati and Louisville division in good physical condition.

Some statistican has estimated that 326,088,080 railroad ties now rest under the 161,397 miles of track laid in the United States at the present time. No road uses less than 2,640 ties a mile, and some lines over which the traffic is heavy lay 2,816 or more. The average life of the tie is about five years, so that the yearly consumption of ties is about 85,217,616.

Rudolf Bensman, of the Bass boiler shop, is absent from duty on account of sickness.

James Olive has accepted a position in the machine department of the Wabash shops.

Thos. Murphy has resigned his position in the machine department of the American wheel works, and will probably leave to accept one at Chicago.

Engineers J. Voirol, of the Fort Wayne road, and A. Hiser, engineer on the Grand Rapids, have reported for duty after an absence, and J. E. Murphy is absent on a few day's vacation.

Tom Gibson, who was formerly connected with the American wheel works for nearly fifteen years, and was foreman of a department for a time, has accepted a position at the electric light works.

Frank Frunier, of the Bass moulding rooms, drove to Avilla last evening. While out riding with a young lady from that place the horse became frightened at a dog and a serious runaway was narrowly averted. One of the shafts of the buggy was broken.

The Brotherhood of Machine Moulders will hold their regular meeting in their hall this evening. James Christie and Patrick O'Neil, the retiring president and vice-president of the organization, who were presented with an emblem of the union at the last meeting for the efficiency in which they performed their duties, will make speeches this evening.

The committees of the conductors and brakemen on the Wabash road have returned from their conference with their officials and settled down to work, feeling satisfied, it is stated, with what they accomplished. Dating from February 1, 1891, on through freight runs conductors will receive 3 cents per mile and brakemen 2 cents, the same as before, but a new regulation that no run shall be counted less than one hundred miles will make the rate really higher on short runs. Another new regulation that will make the rate higher is in regard to overtime. Whenever ten miles an hour is not made on a run conductors are to be paid thirty cents and brakemen twenty cents an hour for all extra time they are out. Through passenger conductors will receive $100 per month, as heretofore, but they will also receive two cents per mile for everything over 5,500 miles. Through passenger brakemen are still to receive $50 per month, but will also get one cent per mile for all over 5,500 miles. The same scale of wages will apply to the branch lines.

THE "SPIDER AND FLY."

The Play at the Masonic Temple Tomorrow Night.

Concerning the performance which will be at the Temple to-morrow night, the Philadelphia Press says: "M. B. Leavitt's spectacular, burlesque and pantomime, "Spider and Fly," drew an audience that crowded the People's to the doors; at 8 o'clock there was not even standing room. The performance proved to be a good entertainment, and a long programme of excellent specialties was given incidentally. There was an abundance of singing and dancing, the music was new and catchy, the marches and groupings by some very pretty and shapely young ladies. The variety interpolations included such diverting features as a number of catchy songs artistically rendered by Miss Hilda Thomas. A Spanish tambourine dance by the graceful Leyton sisters; some wonderful acrobatic feats by Will Seigrist; some clever imitations by Thomas Riley; the contortions of Stella Lucinda; and a remarkable juggling act by Zamo."

Personal Liberty

vs.

Physical Slavery.

We are all free American citizens, enjoying our personal liberty; but most of us are in physical slavery, suffering from scrofula, salt rheum or some other form of impure blood. Hood's Sarsaparilla is the great blood purifier which disolves the bonds of disease, gives health and perfect physical liberty.

The majority of people committing suicide in Japan are over fifty years of age.

Capt. John McGowan, of the revenue marine service, eighty six years old, who died Sunday night at Elizabeth, N. J., commanded the famous steamship Star of the West, which was chartered to take soldiers to the relief of Fort Sumter. The vessel had neither armament nor protection from the batteries, and was without orders to go under fire. As she entered Charleston harbor January 9, 1861, the shore battery of the rebels opened fire. Captain McGowan kept on and signalled for encouragement from Fort Sumter, but none was given. To lie under the guns of Fort Moultrie and be sunk was suicidal, so the Star of the West was turned back to save the lives of the crew, which act of Captain McGowan the government approved. The fact that open hostilities had not been declared was General Anderson's reason for not returning the fire. Thus Captain McGowan received the first shots fired in the rebellion. He was engaged in service throughout the war. He retired in 1862, after fifty-three years' service.

Michael Lane, of Scott township, Montgomery county, some years ago eloped with a woman not his wife, and he finally entered land where the city of Whatcomb, Wash., now stands. Afterward there was an attempt to secure his arrest, but while the officer was en route the fugitive, who had changed his name to William M. Hart, fled to to Canada, where he remained until the agent of Mrs. Lane returned to Indiana. It develops, however, that Lane will lose his land, because he violated the federal law by entering it under an assumed name, and a counter-claim has been set up. It being impossible to influence witnesses to go to Washington, in order to testify against Lane, a snapshot photograph of him was taken as he was standing in the door of a saloon, and through this means his former neighbors are making affidavits to his identity. His property there is valued at $100,000.

5 AND 10 CENT STORE.

DO NOT MISS IT.

That is what the ladies say about our Cost Sale, which positively is a cost sale and no 10 or 15 per cent. above cost which most of the advertised cost sales are.

Why, it is a common thing for us to hear this week: "O, that is 15 cents per yard cheaper" or "10 cents per yard cheaper than over there." Then you will go to the next counter and again you will hear: "Why, they asked me 65 cents a pair for the same kind of hose and I see all you ask is 52 cents." And so with hundreds of things on the same scale, which will satisfy you that we are doing as we advertise.

Do Not Miss It!

Is what we also say for your own benefit.

ENDS HER LIFE!

By Jumping Into a Cistern Because She Feared Her Riches Would Take Wings.

EVANSVILLE, Ind., Jan. 23.—Jacob Kron, of this county, died four months ago leaving an estate valued at more than $100,000, and a wife and two children to inherit it. Yesterday Mrs. Kron's body was found in a cistern, she having committed suicide. She feared she would lose her property and be sent to the poor house and it preyed so heavily on her mind that she lost her reason.

OTHER INDIANA NEWS.

INDIANAPOLIS, Ind., Jan. 23.—Tom Levy, a race horse owner, well known in Indiana, was tried in the United States court yesterday on the charge of passing counterfeit money, and was acquitted. The principal prosecuting witness gave testimony which contradicted that which they previously said to the grand jury. When the district attorney demanded an explanation the witness said his life would be in danger if he repeated the testimony that he gave before the grand jury. He was at once sent to jail for perjury.

COLUMBUS, Ind., Jan. 23.—Homer Sweeney, a prominent young man of this city, eloped last night with Miss Ethel Stevens, daughter of a wealthy merchant of that place, and they were married. The elopement has created a sensation in society circles.

THE MEN ARE ON TOP.

The Chicago and Erie Road Are Unable to Move Trains—Strikers Stand Firm.

HUNTINGTON, Ind., Jan. 23.—The strike on the Chicago and Erie road is still on, with the employes on top, the company being unable to run the usual trains. A committee of citizens made a fruitless effort to arrange a compromise. The employes, with the full consent of Scott, the train-dispatcher, over whose discharge the trouble arises, agreed to declare the strike off if the company would reinstate Scott and permit him to resign from the service with an honorable record. This proposition was made because Scott himself feels that he could never resume his old place with comfort and because he is very anxious to protect his associates, that they may not suffer on his account. The committee presented the proposition to the officials, but they either could not or would not consent to its terms. The failure to agree to this compromise has stirred up the railroad men of all departments, and they now regard the fight as one to a finish.

The local Brotherhood of Engineers met yesterday, some sixty or seventy being present, and resolved to stand by the conductors at all hazards. They also formulated their own grievances, which will be presented to the officials. At this meeting dispatches were read from Chief Arthur and other grand officers, approving of their course in refusing to pull trains mounted by men employed in place of the strikers. Chief Wilkinson, of the Trainmen's brotherhood, has also put on his war paint, and will stand by the conductors. The local press give the statements of Scott and the other train dispatchers, to which they flatly contradict the assertion made by General Manager Tucker that the alleged lap-order given by Scott could by any possibility have resulted in a collision.

Yesterday dispatches were received by the conductors from Chief Clarke, and by the officials from General Manager Tucker, ordering a committee of conductors and Superintendent Moorehead, accompanied by Conductors Burgess, Darmody and Cronin, left for Chicago on a special at 6 o'clock. The impression is that a compromise will be proposed, and if it is fair to Scott and the conductors it will be readily accepted.

A dispatch from Chicago says: "We are completely tied up," said General Manager Tucker, of the Chicago and Erie road, replying to a query. "It may last one day and it may last a week. We will not accede to the demands of the strikers. We will wait and see when the strikers get tired. We are fixed for the strike. There is not a pound of perishable freight on the road, and we are refusing any freight of whatever description. This is a dull season of the year, and we would just as soon lay off a month as not. There are no damage suits coming. We have prepared for that. We are going to make a test case of this. Our car-shops are shut down and our trains are not running. We will run them whenever the strikers will let us. They have cut the wires, and what they will do next remains to be seen. Passengers on tied up trains will be brought in over other lines."

CHICAGO, Ill., Jan. 23.—The grievance committee of the Chicago and Erie conductors and train dispatchers arrived in Chicago this morning and began a conference with General Manager Tucker, which is still in session. Mr. Tucker said he could tell nothing about the result until some understanding had been reached. It was his hope and belief, however, that a settlement could be reached, but of the terms he could not even make a guess.

The conductors are headed by E. E. Clark, chief of the Federation of Railway Conductors, who said it remained for Mr. Tucker to put an end to the strike by reinstating Train Dispatcher Scott. Mr. Tucker said this morning that he hoped to make an effort to get trains out to day.

THERE IS NO CHANGE.

THE CLOTURE RULE.

The Debate on It Continues in the Senate.

WASHINGTON, Jan. 23.—The senate met at 11 o'clock this morning in continuation of yesterday's session. Mr. Cockerill, who was speaking on the cloture resolution when the house adjourned last evening, was immediately recognized and proceeded with his speech. At this point Mr. Gorman called attention to the absence of a quorum and a call of roll was ordered. Only thirty-eight senators responded, but in a few minutes a sufficient number to make a quorum appeared and business was proceeded with.

Mr. Morrill asked consent to offer a resolution for distributing public documents to agricultural colleges; but Mr. Gorman said he was compelled to object to any business whatever except the regular order.

Mr. Cockerill resumed the floor and yeilded to Mr. Hoar who said he desired to add one idea to what he said last evening. He regarded the pending proposition, he said, as he should if the case had arisen in the supreme court of the United States. There was no one who would not recognize the importance of absolute, free and untrammeled discussion in that tribunal and that no member of the court should be curtailed in stating his opinion to his brethren, or suggesting any modification of any judgement expected to be pronounced. But if it could be conceived of the august tribunal that in the case of some controversy about to pass into judgment effecting the interests of the large portions of the American people, and exciting their feelings, if four members of the nine should undertake to read opinions alternately day after day, night after night, and week after week—one taking turns with the other—and having read all the decisions which had been made since the foundation of the government, and in that way to prevent the action of the court altogether, or to postpone it until the judgments should cease to be effectual, would anybody doubt that it would be the duty of that great tribunal to interpose and to adopt some rule that would put a limit to the length of opinions or to the number of arguments that should be made by the minority?

When Mr. Hoar had concluded his statement, Mr. Cockerin resumed his speech. Mr. Teller asked Mr. Aldrich how long a time he proposed to allow for debate on the closure resolution.

Mr. Aldrich said that he took it for granted that there could be no closing of debate except by the action of the senate itself, and he asked unanimous consent that the vote should be taken on the resolution and amendment at 5 o'clock to-morrow.

Mr. Gorman objected and declared that the step taken by the senate yesterday was one which had overturned the whole history of the senate and that the decision of the presiding officer and the vote of the majority were indirect opposition to every rule of the senate and of the general parliamentary law.

NO CHOICE

Has Yet Been Made in the Illinois Senatorial Contest.

Four more ballots were taken without any change.

It is said they will continue balloting all afternoon unless a conclusion is reached.

The joint session adjourned until 12 o'clock to-morrow on motion of Senator Fuller, who stated in advance of the motion, that the republicans would hold a joint caucus at 4 p. m. to-day.

GREAT EXCITEMENT

At Brussels Over the Death of Prince Baudouin Heir Apparent.

BRUSSELS, Jan. 23.—The excitement created by the announcement of the sudden death of Prince Baudouin, heir to the throne of Belgium, increases hourly and is fed by the alarming rumors already in circulation as to the cause of the unexpected catastrophe.

One of these rumors which gains the attentive ear of the public hints that when the mystery now surrounding the affair is dispelled, it will be found to be in circumstances and details almost a repetition of the tragedy which recently culminated in Austria with the death of Arch Duke Rudolph and the young Baroness Vetzera.

Attention is directed to the fact that a German governess was recently, and under peculiar circumstances, dismissed from her place at the court of Brussels. It is now said that this woman has been engaged in an intrigue with Prince Baudouin, which resulted in the birth of a child. The official notice of death gives a hemorrhage as the cause and states that the prince had been suffering from a chill resulting from prolonged attendance at the bed side of his sister Henriette, who has been critically ill. She has not been allowed to learn of her brother's death, for fear the news will cause a fatal termination of her illness.

The prince's death leaves Prince Albert heir to the throne. He is a brother to the late Prince Baudouin and was born April 8, 1875.

WILLIAM B. FISHER,

Two First Cashier of the First National Bank in Indiana, Formerly of This City, is Dead.

Last evening at 7:30 o'clock, in New York City, relentless death removed from life, William B. Fisher, for many years a citizen of this city. The announcement came by telegram to D. C. Fisher, a brother of the deceased, at midnight.

William B. Fisher was generally known not only in Fort Wayne but through northern Indiana, having been prominently identified with the first banking business in this section of the country. The deceased was born in Little Falls, Herkimer county, New York, but in his youth he went to Decatur, Indiana, and worked in a store owned by the J. D. Nuttman, who died in this city a few months ago.

He came to Fort Wayne with Mr. Nuttman and was associated with him in the private banking business until May, 1863, when the First national bank was organized, it being the first national bank in Indiana. Mr. Fisher was elected cashier, making him the first cashier in the state, a position he held until 1871, when he resigned and went to New York city, where he became a member of the firm of F. & C. Moore, importing and exporting commission merchants. He was a member of that firm up to the time of his death. Mr. Fisher had been afflicted with a nervous prostration for five years, and this condition superinduced physical complications, which resulted in his death. Last June he was in this city the guest of his brother, D. C. Fisher, the insurance agent, and R. J. Fisher, treasurer of the Bass foundry and machine works. That visit was made enjoyable by the many warm greetings he received, and many pleasant memories were revived of days when he made Fort Wayne his home. Shortly afterward he went to Europe in search of health, but returned to America two months afterward without any visible improvement in his condition, although under the care of eminent physicians. He gradually failed from that time until the end. Mr. Fisher was fifty-two years old. He married the daughter of Wm. M. Force, the senior member of the firm with which he was associated, and she, with two children, are left in the immediate family to mourn his loss, with the brothers, D. C. and B. J. Fisher, of this city and a sister, Miss Nettie B. Fisher, who resided with the family at Newark, N. J., which was properly their home, although Mr. Fisher's business was located in New York. The demise of Mr. Fisher is sad indeed. He was a man of intellectual and social standing, and a devoted husband and father and a true friend. He was honorable in all business transactions and his word was as good as his bond. The funeral will take place Sunday afternoon and R. J. Fisher and wife, D. C. Fisher will leave on the limited this evening for New York to attend the funeral.

A CHILLY BUSINESS.

Fort Wayne Natural Ice Dealers Cope With Present Difficulties.

While the ice dealers are reflecting over the cold weather which failed to materialize, the ice makers are probably exercised in feeling to the opposite extreme. The past few seasons have not been so profitable to ice dealers as could be desired, consequently no surprise is felt because they have to contend with an unusual disappointment this year. The outlook is positively dubious and uncertain. Last year the launching of the artificial plant caused Gerberding's ice line to quit business, relieving the field for the other gatherers of the congealed. This year there was anticipation of an ice harvest from the rivers hereabouts, but nature has failed to comply with their desires, so the surrounding lakes have been resorted to as a means of obtaining the required supply. At Pleasant lake two ice dealers of this city are spending no small amount of money to lay in a stock of ice for the coming season. They are Fred Helling and P. Morsu. So far as the ice harvest in this city is concerned it has been of no benefit whatever. Seidel erected ice houses in Wagner's addition with the view of filling them with ice for his own use, but he has thus far been foiled in his object and he says that unless it becomes cold enough to freeze ice several inches he will convert his ice houses into residences.

COMING HERE.

General Offices of the Equitable Life Insurance Company.

It is learned, to-day, upon the authority of a prominent representative of an insurance company that very soon the general offices for Northern Indiana, of the Equitable Life Insurance company, of New York, will be established in this city. Heretofore the general state offices have been maintained at Indianapolis, but to expedite the transaction of the fast increasing business it has been deemed advisable to have several general offices, each to have jurisdiction of certain districts. The general office to be maintained in this city will employ from eight to ten clerks and will have control of twenty-two counties, a considerable territory. It is not known at present who will receive the appointment of manager. The local agent of the Equitable company in the city is M. E. Argo, ex-auditor of this county. The location of the offices will be central.

Hohmeyer, who has Calhoun and East Berry street. These private policemen are paid by the merchants and while they have full authority to make an arrest, they are not under the jurisdiction of any one but the persons who pay them a small fee each week.

The St. John's Lutheran Congregation Decide to Divide Their Church Work and Build.

It is semi-officially announced that the St. John's Lutheran congregation, of which Rev. Dannaker is pastor, will build a new edifice in the Seventh ward, the increasing attendance at the church on West Washington street, making such action imperative. The trustees of the church are looking around for a site and have under consideration three lots at the corner of Buchanan and Oliver streets and as many at the corner of Buchanan and John street. The new edifice will be a handsome brick structure to cost $30,000. In addition to this, school buildings will be erected at a probable cost of $10,000. The idea of selecting a location east or southeast is to make it make it convenient for a large portion of the congregation who reside in or near that section, who now travel a long ways to reach the present church on the west side.

STOLE JEWELS.

Burglars go Through the Residence of John Landenberger.

One of the elegant Bash-Smyser residences on West Berry street, corner of Broadway, is occupied by Mr. and Mrs. J. Landenberger. Mr. Landenberger has been absent a few days, being in Kentucky on a business mission in the interest of the Indiana machine works, of which he is treasurer and manager. While he is away Mrs. Landenberger is in the habit of spending the night at the South Wayne residence of her father, J. F. W. Meyer, the druggist, and according to her custom she locked up the house and left it unoccupied last evening. Sometime during the night burglars pried open the kitchen window with an ax and thus gained an easy access to the interior. They ransacked the entire house, evidently in search of money, but fortunately not a cent was left in the house. They occupied their time in looking at the costly silver and other valuables, which they left scattered about in a promiscuous manner, but the only articles actually carried away are several jewels, a gold chain, breast-pins, and trinkets, some of them being prized highly, not for their intrinsic value, but for their worth as heirlooms in the family. When Mrs. Landenberger opened the doors of her home this morning, she was first made aware of the robbery. The fellows made their exit from a second story widow, climbing onto a porch and dropping thence to the ground. The sheriff and his deputies are working on the case.

A shark was caught at at Santa Cruz, Cal., the other day, whose liver yielded six barrels of oil.

YESTERDAY the natural gas company shut off the supply of gas to the Perkins hotel at Lebanon because the proprietor persisted in using it for illuminating purposes, and suit will be brought to compel the company to observe the conditions of its charter. THE joint caucus of democratic senators and representatives of Wisconsin yesterday nominated Ex-Secretary Wm. F. Vilas for United States senator to succeed Senator Spooner. There was practically no opposition. The republicans have not yet announced the time for holding their caucus. The two houses will take the first ballot, acting separately next Tuesday.

THE Indianapolis News says: "O. W. Comingore, of this city, has a personal acquaintance with E. J. Pennington, the inventor of the Mount Carmel flying-machine. He says Pennington has a small model of his machine that has worked successfully, and that it flys about his house freely, and under good control. He says Pennington told him the flying-machine would be a success beyond per adventure."

A NEWSPAPER is always printed in a rush. There is always something that should be left out; something left out that should have been put in; it is sometimes too quick to judge and often too quick to act, but with all its faults and shortcomings there is more education in a bright, newsy paper than there is in a novel. You will find that the brightest boy on pratical, sensible every day questions is the boy who prefers newspapers to novels.

MR. MOODY says: If people were as anxious about their eternal welfare as they are about their temporal welfare, there would be no trouble to men and women getting into the kingdom of God by hundreds. People are so earnestly bent on their temporal affairs, so diligently and self-sacrificing in piling up earthly riches, that they have softening of the brain, so much are they troubled about that which perishath. They are terribly in earnest about these things which are earthly, and which perish. Shall we not be in earnest about the things eternal? It is no time to seek God when the house begins to fall, when the walls are coming down, when we are tortured on a bed of sickness. It is no time then to seek eternal riches. When God's spirit deals with us so that we groan under sin as David groaned, and pray as he prayed, we will very quickly find God, and rejoice in His mercy.

A BILL is pending in the Ohio legislature to make standard railway time the lawful time of the state. "It would be well to have such time adopted everywhere," says the Toledo Bee. "The railway corporations are so well satisfied with standard time that it is not at all probable that a return will be made to the old system, or that any change at all will be made by them. The prevailing practice of keeping two separate hours of time by people generally is as senseless as it is needless, and by some concert of action, perhaps by state authority, there ought to be a change that would make one time standard throughout the state."

THE official census of Germany, recently completed, gives Berlin a population of 1,874 485, being an increase of 359,000 in five years. The city containing the next highest number of persons is Hamburg, with a population of 570,534. This is an increase of 99,584 since 1885. Hamburg, which with the city of Altona has 715,170 inhabitants, has added 21 per cent to the population within the last five years. Leipsic which has 353 272 inhabitants, had only 159,500 in 1885. This is the greatest increase in any city, being 82 per cent. Munich has 344,893 inhabitants, Breslau 334,710, Cologne 282.537, Dresden 276,085, Madeburg 200,071, and Frankfort on the Main 179,860.

The cruiser Charleston, with the remains of King Kalakaua on board, steamed out of the Golden Gate from San Francisco, at 5 o'clock last evening. The funeral of the Hawaiian monarch was a great demonstration. Fully 50,000 people lined the streets as the pageant moved from Trinity church to the wharf. The service in the church took place at 1 o'clock, Rev. J. Saunders Read officiating. The channel was draped in mourning and in the national and Hawaiian colors. Six marines bore the casket. The procession from the church to the wharf was composed of representatives of the national, state, county and city government, United States and state troops and Knights Templars. The body was received at the wharf by Admiral Brown and staff and taken on board the Charleston. As the cruiser passed out of the harbor minute guns were fired from Alcatraz island and Presidio military reservation. The Charleston should make quick time, and is expected to reach Honolulu in five days.

THE LEGISLATURE.

The senate in the afternoon passed the bill providing that an heir or creditor may apply for appointment of administrator de bonis non after settlement of estates when new assets are discovered. A wrangle over the appointment of an additional committee clerk was stopped by the entrance of Governor Hovey, in whose honor fifteen minutes recess was taken, and each senator was presented by Lieutenant Governor Chase. Senator Gilman has introduced a bill to make the auditor, secretary and attorney-general a state board of insurance to conduct a cheap insurance business for the people, Milo W. Barnes, defeated democratic candidate for senator from Miami and Howard county, has decided to contest the election of Loveland. The house engrossed bills creating office of supervisor of oil inspectors appointed by the state geologist; that none but native live stock shall be bought for state institutions; to empower common councils to enforce building of sewers and fire cisterns, and charge to property owners; to create warden and directors a board of parole, with authority to parole prisoners whose sentence must be indefinite between two and twenty years, and for bad behavior after parole may be recommitted without trial; free text book bill was reported adversely.

The order of business in the house being the reports of committees, a great many were made. The judiciary recommended the reference to the ways and means committee of Mr. Lindesmith's bill requiring county recorders of the state to charge and collect certain fees, which was agreed to. The same committee made a favorable report on Mr. Work's bill, athorizing county commissioners to appoint justices of the peace in incorporated towns where there are no such officials. The report was concurred in and the bill engrossed.

Mr. Bryant's bill, providing for the payment of an annual salary of $100 to justices of the peace in addition to their fee, was indefinitely postponed.

The house committee decided to call upon Governor Hovey and Secretary Johnson, of the state board of charities, to learn from them what they know about the alleged mismanagement of the prison north. Both the house and senate committees will go to Michigan City next Wednesday to make an investigation.

Only two general bills for a fee and salary law are before the committees. Neither of them pleases the members of the committees in either senate or house.

Mr. McHugh's bill requiring engineers of stationary engines to be examined and secure license, and providing for an examiner in each congressional district, who shall receive $5 for each man examined, was also recommended to pass.

Mr. Harlan's bill, making it unlawful to burn natural gas in dambeaux between the hours of 8 a. m. and 5 p. m., also received the favor of the committee which reported it.

Mr. Mount introduced a bill for the suppression of impure literature, and Mr. Yarnan supplemented it with a memorial from the W. C. T. U., asking that such a law should be passed.

Governor Hovey has signed the following bills, which have now become laws: Mr. Howell's, appropriating $105,000 for the expenses of the general assembly; Mr. Claypool's, to legalize the acts of the incorporation of the town of Knightstown, Henry county, and Mr. Fippen's, authorizing the auditor of state to make a deed to certain property in Tipton county to Luther H. Mott.

It is possible the senate will have another contest to dispose of. Senator Loveland, of Miami and Howard counties, defeated his opponent, Milo W. Barnes, by eighteen votes according to the face of the returns. Mr. Barnes filed contest proceedings a few days after the election, but withdrew them. He came down to the capitol yesterday, and it is reported now that he will transfer the contest to the senate and open it up again, depending upon the partisan composition of that body, in part at least, for the success of his case.

BEAUTY CO-OPERATION.

The Knights of St. John From Surrounding Towns Offer Support.

The Knights of St. John are awakening to a dawn of one of the greatest national events in the history of the organization—the annual national convention and encampment to be held in this city next June. Capt. Fred Graff said to a SENTINEL reporter: "The last national affair attracted 8,000 knights from all over the country and there will positively be a larger attendance in Fort Wayne this year. The arrangements for entertaining the mass of visitors are going right ahead without interruption. Fort Wayne will form a batallion of more than 600 men of its own in addition to the number who will unite with it from Avilla, Defiance, Decatur, Huntington, New Haven, Columbia City, Lafayette, Peru, and other places."

The annual encampment of the Knights of St. John has magnetic attraction, having at no time been attended by less than 5,000 members. Many of the delegations will come in special trains, accompanied by bands. In numbers it promises to be the greatest event ever witnessed here, and in gorgeous display it will equally excel.

Pursuant to a call of State Organizer Murray, of the Boiler Makers' union, only a small number of the craft met at the Machinists' hall, in the Foster block, last evening. The state organizer was assisted in his work by Mr. J. Daley, M. M. of No. 70 Friendship lodge. The permanent organization of a local union was postponed to a later date, when more interested in this avocation will be present. A resolution was passed to petition the representatives from this city to support house bill No. 32, introduced in the Indiana legislature by Mr. Curtis, of Marion county, relating to the inspection of boilers. It was warmly endorsed by the members of the machinists' union present.

THE LION KEPT WATCH ON HIM.

A Man's Thrilling Experience With One in South Africa.

The following is told on the authority of a South African missionary. A man having sat down on a shelving, low rock near a small fountain, to take a little rest after his hearty drink, fell asleep; but the heat of the rock soon disturbed his dreams, when he beheld a large lion crouching before him, with its eyes glaring in his face, and within little more than a yard of his feet.

He was at first struck motionless with terror, but recovering his presence of mind he eyed his gun and began moving his hand slowly toward it, when the lion raised its head and gave a tremendous roar, the same awful warning being repeated whenever the man attempted to move his hand. The rock at length became so heated that he could scarcely bear his naked feet to tomb it. The day passed, and the night also, but the lion never moved from the spot; the sun rose again, and its intense heat soon rendered his feet past feeling.

About noon the lion rose and walked to the water, only a few yards distant, looking behind as it went, lest the man should move when, seeing him stretch out his hand to take his gun, it turned in a rage, and was on the point of springing upon him. But another night had passed as the former had done; and the next day again the lion went toward the water, but while there, he listened to some noise apparently from the opposite quarter and disappeared in the bushes. The man now seized his gun, but on first essaying to rise he dropped, his ankles being without power.

At length he made the best of his way on his hands and knees, and soon after fell in with another native, who took him to a place of safety; and, as he expressed it, with his "toes roasted." He lost his toes, and was a cripple for life.

The Oldest Living Indian.

The oldest living Indian, perhaps, is Muddy Water, a Seminole chief, residing in the family of Dr. Hamilton, of Seminole Agency, I. T., who has just entered his 109th year. He has been blind for some years now and unable to perform any work except that of making baskets, in which he is an expert, producing some very pretty, tasteful work. The old fellow is extremely garrulous, a most unusual thing for one of his race, and is very proud of his English, which is very good. Besides his blindness he is also a great sufferer with a wound in his left leg, which will eventually cause his death. He claims to have received this wound during the Seminole outbreak in 1813, when he says he killed in one day eleven white men with his own hands.

From what can be gathered from his reminiscences he was at that time 32 years old. He has unbounded admiration for Jackson, whom he describes as one "Great man with eagle's eye," and says the general conversed with him frequently after the war was over. He further declares that after Topoheka he never raised his hand against a white man. The Indians are very deferential to the old chief, who bears among them a great reputation for wisdom, and is always referred to by them as the "Old One."

One of them, himself a man of 50, when questioned in regard to Muddy Water's age, asserted that the old chief had been an ancient man when he was a boy, sitting in the council, which was a privilege accorded only to those over 60 years of age. Muddy Water is of rather low stature for an Indian, but indications show that he must have been of extraordinary strength in his prime. He has a moral hatred of women, suffering none of the squaws about to approach him, but he is said to have been married and the father of seven sons, all killed in wars with the whites.

Obeyed the Signal.

"In the early days of the Atchinson, Topeka & Santa Fe Railroad," said a railroad man to a Pittsburgh *Dispatch* reporter, "stock was so frequently killed on the road that Manager Clark found it necessary to require the locomotive engineers to make a note of whatever they killed. The engineers had to fill out a form stating when, where and what kind of animal had been killed, and turn the report in to the superintendent of stock claims. One day a complaint from a farmer was received by Manager Clark, in which the killing of a valuable cow by the Santa Fe engine was related. The letter was referred to the stock claim department, but no report from the engineer of the train in question could be found. Mr. Clark sent for the engineer, an old employe of the road named John Norton, and asked him why he had not reported the collision with the cow.

"'Didn't know I hurt the cow,' said Norton.

"'You remember hitting the cow?'

"'Certainly—and I slowed up when she rolled over on her back, but she waved her feet to me to go ahead, and I concluded she was all right.'"

A Hermit in a New York Hotel.

The census brought out the fact that a man can live in a New York hotel for ten years and never speak to any man or enter into any communication with any one except as to the common-place affairs of eating and drinking. This champion hermit lives at the Grand Union Hotel and is known as Bailey. That is all that is known about him. There was a statement printed that the census man had skipped that hotel, and in writing to the supervisor to say that the story was untrue, and that the enumerator, with the assistants of the clerks, had made every effort to secure the proper information as to all permanent residents in the house, the proprietor, Mr. Garrison, added that there was one man called Bailey, who, to the best of his knowledge, had not spoken a word to a living soul since he first came to live at the hotel, ten years ago, and from whom it had been impossible to obtain any answers to the questions. There has been a story told of another similar hermit who used to live at a large down-town hotel, but that one did talk occasionally.

"When lovely woman stoops to folly," and goes out in the snow without her India rubbers, the only art to cure her cold is to buy one bottle of Dr. Bull's Cough Syrup at 25 cents, and take it.

Dyspepsia

Makes the lives of many people miserable, causing distress after eating, sour stomach, sick headache, heartburn, loss of appetite, a faint, "all gone" feeling, bad taste, coated tongue, and irregularity of the bowels. Dyspepsia does not get well of itself. It requires careful attention, and a remedy like Hood's Sarsaparilla, which acts gently, yet efficiently. It tones the stomach, regulates the digestion, creates a good appetite, banishes headache, and refreshes the mind.

After eating I would have a faint or tired, all-gone feeling, as though I had not eaten anything. My trouble was aggravated by my business, painting. Last spring I took Hood's Sarsaparilla, which did me an immense amount of good. It gave me an appetite, and my food relished and satisfied the craving I had previously experienced." GEORGE A. He buys those that cost him least; he can get the regular price for them; and the faster they break the more he sells. That's how he reasons.

THE SKIN.

It is an important factor in keeping good health; if it does not act in the way intended by nature, its functions are performed by other organs,—the Kidneys and the Lungs; and the result is a breakdown of general health.

Swift's Specific

is the remedy of nature to stimulate the skin to proper action. It never fails in this, and always accomplishes the purpose.

E. O. Bradley, the popular engineer on the Fort Wayne road, is quite ill at his home on East Lewis street.

"Doc." Doughty, of the Pennsylvania company's office, has resumed his duties after a few days sickness.

W. Concannon, fireman on the Pittsburg road, has resumed his duties after an absence on account of a sprained ankle.

J. Stewart and W. Kahoe, passenger firemen on the Pittsburg road are absent from duty a few days on account of sickness.

Thomas Magee, of Superintendent of Motive Power Cassanave's office, left yesterday on a trip for his health to St. Louis Springs, Michigan.

Engines No. 36 and 53 of the Grand Rapids road, are in the shops for a general repair and No. 50 has been turned out after a general overhauling.

Thomas A. Davis, who for three years held a position in the machine department of the Bass works, has resigned to accept a similar position in the Pittsburg machine shops.

M. L. Shepler, a switchman in the yards of the Fort Wayne road, accidentally got his hand caught between the deadwoods and two of his fingers were so badly mashed that amputation was necessary.

Frank Teeben, brakeman on the Dayton and Michigan road, with headquarters at Lima, Ohio, is in the city for a few days on a visit with his brother William, who is a brakeman on the western division of the Fort Wayne road.

W. L. Coutz, a former switchman in the yards of the Fort Wayne road, but who for three years has been running a train on the Dayton and Michigan road, with headquarters at Lima, Ohio, has accepted a position as brakeman on the Grand Rapids road.

The gravel train that has been on the Fort Wayne road between Lima and Warsaw, has been taken off and also the work train at Valparaiso. They will be placed on again in the spring. The crews that were on these trains will be placed on through freight.

The Wabash passenger department has notified competitors that it will confiscate all mileage books found in the hands of improper parties, and asks that their competitors do likewise, thus stopping the abuse of the mileage book which has become so common.

J. L. Potter, fireman on the Grand Rapids road, has purchased stock in the Old Fort Wayne Pulley works, on East Wayne street, and will probably resign his position to give his attention fully to his new business. Joe is an enterprising young man and will succeed in any business he undertakes.

Train Master Sol E. Blair, Traveling Engineer A. S. Work, and Civil Engineer Wm. McK. Pardee, all of the Nickel Plate road, left yesterday for a few days stay at Chicago. They accompanied General Manager Williams and Superintendent of Motive Power McKenzie on a tour of inspection.

General Manager Bradbury, of the Lake Erie and Western, has gone to New York for a conference with the directors regarding the operation of the road the coming year. He desires to largely increase the equipment of the lines, and expend quite a sum of money in placing the Fort Wayne, Cincinnati and Louisville division in good physical condition.

Some statistician has estimated that 220,088,080 railroad ties now rest under the 161,397 miles of track laid in the United States at the present time. No road uses less than 2,640 ties a mile, and some lines over which the traffic is heavy lay 2,816 or more. The average life of the tie is about five years, so that the yearly consumption of ties is about 85,217,616.

West Rhodes, of the Bass moulding rooms, returned last evening from a trip to Lima.

Rudolf Bateman, of the Bass boiler shop, is absent from duty on account of sickness.

James Olive has accepted a position in the machine department of the Wabash shops.

Thomas Hughes, of the Wabash shop, left yesterday for Toledo on business for the company.

Charles Sheridon has resigned his position in the boiler department of the Wabash shops.

The young child of Max Klous, of the car wheel department of the Bass works, is lying at the point of death.

Henry Guth, of the Bass moulding rooms, has resumed his duties after an absence on account of sickness.

The department of the American wheel works, operated by the large engine, are shut down for a few days to place an automatic cutter.

Thos. Murphy has resigned his position in the machine department of the American wheel works, and will probably leave to accept one at Chicago.

George Barton, of the Chicago and Erie road, is in the city visiting for a few days. He is not working during the strike. Mr. Barber was formerly a boiler maker at the Bass works.

Engineers J. Voirol, of the Fort Wayne road, and A. Hiser, engineer on the Grand Rapids, have reported for duty after an absence, and J. E. Murphy is absent on a few day's vacation.

Tom Gibson, who was formerly connected with the American wheel works for nearly fifteen years, and was foreman of a department for a time, has accepted a position at the electric light works.

Frank Frazier, of the Bass moulding rooms, drove to Aville last evening. While out riding with a young lady from that place the horse became frightened at a dog and a serious runaway was narrowly averted. One of the shafts of the buggy was broken.

The Brotherhood of Machine Moulders will hold their regular meeting in their hall this evening. James Christie and Patrick O'Neil, the retiring president and vice-president of the organization, who were presented with an emblem of the union at the last meeting for the efficiency in which they performed their duties, will make speeches this evening.

The committees of the conductors and brakemen on the Wabash road have returned from their conference with their officials and settled down to work, feeling satisfied, it is stated, with what they accomplished. Dating from February 1, 1891, on through freight runs conductors will receive 3 cents per mile and brakemen 2 cents, the same as before, but a new regulation that no run shall be counted less than one hundred miles will make the rate really higher on short runs. Another new regulation that will make the rate higher is in regard to overtime. Whenever ten miles an hour is not made on a run conductors are to be paid thirty cents and brakemen twenty cents an hour for all extra time they are on. Through passenger conductors will receive $100 per month, as heretofore, but they will also receive two cents per mile for everything over 5,500 miles. Through passenger brakemen are still to receive $50 per month, but will also get one cent per mile for all over 5,500 miles. The same scale of wages will apply to the branch lines.

THE "SPIDER AND FLY."

The Play at the Masonic Temple To-morrow Night.

Concerning the performance which will be at the Temple to-morrow night, the Philadelphia Press says: "M. B. Leavitt's spectacular, burlesque and pantomime, "Spider and Fly," drew an audience that crowded the People's to the doors; at 8 o'clock there was not even standing room. The performance proved to be a good entertainment, and a long programme of excellent specialties was given incidentally. There was an abundance of singing and dancing, the music was new and catchy, the marches and groupings by some very pretty and shapely young ladies. The variety interpolations included such diverting features as a number of catchy songs artistically rendered by Miss Hilda Thomes. A Spanish tambourine dance by the graceful Leyton sisters; some wonderful acrobatic feats by Will Seigrist; some clever imitations by Thomas Riley; the contortions of Stella Luciula; and a remarkable juggling act by Zemo."

Personal Liberty vs. Physical Slavery.

We are all free American citizens, enjoying our personal liberty; but most of us are in physical slavery, suffering from scrofula, salt rheum or some other form of impure blood. Hood's Sarsaparilla is the great blood purifier which dissolves the bonds of disease, gives health and perfect physical liberty.

The majority of people committing suicide in Japan are over fifty years of age.

Capt. John McGowan, of the revenue marine service, eighty six years old, who died Sunday night at Elizabeth, N. J., commanded the famous steamship Star of the West, which was chartered to take soldiers to the relief of Fort Sumter. The vessel had neither armament nor protection from the batteries, and was without orders to go under fire. As she entered Charleston harbor January 9, 1861, the shore battery of the rebels opened fire. Captain McGowan kept on and signalled for encouragement from Fort Sumter, but none was given. To lie under the guns of Fort Moultrie and be sunk was suicidal, so the Star of the West was turned back to save the lives of the crew, which act of Captain McGowan the government approved. The fact that open hostilities had not been declared was General Anderson's reason for not returning the fire. Thus Captain McGowan received the first shots fired in the rebellion. He was engaged in service throughout the war. He retired in 1882, after fifty-three years' service.

Last evening a meeting was held at Bolger & Leman's place, to take action toward the organization of a city base ball league. Michael Lane, of Scott township, Montgomery county, some years ago eloped with a woman not his wife, and he finally entered land where the city of Whatcomb, Wash., now stands. Afterward there was an attempt to secure his arrest, but while the officer was en route to the fugitive, who had changed his name to William M. Hart, fled to to Canada, where he remained until the agent of Mrs. Lane returned to Indiana. It develops, however, that Lane will lose his land, because he violated the federal law by entering it under an assumed name, and a counter-claim has been set up. It being impossible to influence witnesses to go to Washington, in order to testify against Lane, a snapshot photograph of him was taken as he was standing in the door of a saloon, and through this means his former neighbors are making affidavits to his identity. His property there is valued at $100,000.
